NOTE: Due October 1 with at least the required components noted in the cells

1. GOALS & STRATEGIES		2. SIP GOALS & STRATEGIES	3. RATIONALE
If we implement these learning strategies and realize these goals for students by the end of this year....		Then we will be on track for realizing our goals in this area of our 3-year vision (SIP)	Because...
Learning Strategies	Goals for Students		
↓	↓		
Consistently enforce discipline policy for the 5 Non-negotiables	Students will navigate and participate in developmentally appropriate classroom management.	Yes, though we can anticipate an initial <i>increase</i> in discipline referrals.	Students will be held accountable for attending and actively engaging in learning.
Consistently follow through on the “impermissibles” that focus on physical and emotional safety	Students will feel safe and valued in the classroom. Students will understand their personal responsibility and role in developing a positive classroom culture.	Yes, though we can anticipate an initial <i>increase</i> in discipline referrals.	School leaders/adults are responsible for modeling and upholding positive, professional/learning environments. When students feel supported by the adults and trust they will maintain a physically and emotionally safe environment they will feel safer at school and learn appropriate classroom behaviors.
